

Community Council Meeting Minutes

2/9/2022

Start Time: 5:00 pm

Members Present:

Angie Allen, Brittney Montague, Robin Gibbs

Agenda:

Trustlands discussion of final report and funds we had and will have to spend next year.

Community Council discussion reviewing the jobs and responsibility. Handouts available for members to read. Discussion of how we can get more involved. Post on Facebook, parent message...

School Safety Plan parents did not want detailed information about procedure of when, where and how their kids are arriving and leaving school posted on the school web page. Parents agreed to a modified plan of vague information. They are aware of how the School functions and are ok with it not being public.

TSSA Sample plans were distributed and we discussed how our little school will write ours. Parents felt that addressing reading abilities was most important so it will be goal #1. Teacher collaboration will be goal #2 and will focus on time to collaborate once a month having a half day for students in order to make plans. Goal three will be for the students and focusing on social emotional resources.

Items to purchase Teachers presented to parents ideas of materials to purchase for next school year . Parents would like us to focus on reading and offering a variety of new books for students to check out of the library. Decodable books, online licenses and Spire Kits would like to be purchased as well. Last year Meet the Masters was purchased for Art lessons and the kids have enjoyed the program. If funding is available we would like to purchase the second set of the program. Only problem is it costs \$3,000.

Meeting Closed at 7:01 pm
